MAZEN HOSSNY AHMED

FULL-STACK SOFTWARE ENGINEER

+20 115 287 9755 | mazen.hossny.121@gmail.com | github.com/mazen41

PROFESSIONAL SUMMARY

Full-Stack Software Engineer with 8 years of experience delivering production web and mobile applications across SaaS, hospitality, HR, logistics, and e-commerce. Strong in Laravel/PHP, Next.js, React, and Flutter, with hands-on experience in API design, database optimization, third-party integrations, and end-to-end product delivery. Work includes applications with 50,000+ and 5,000+ downloads, enterprise ERP workflows, and multi-tenant SaaS platforms serving users across Egypt, Saudi Arabia, and the UAE.

TECHNICAL SKILLS

Backend & APIs: PHP, Laravel, Node.js, RESTful API design
Frontend: Next.js, React, TypeScript, Tailwind CSS, HTML5, CSS3
Mobile: Flutter, Dart, Android, iOS
Data & Caching: MySQL, PostgreSQL, MongoDB, Redis
DevOps & Tools: Git, Docker, Linux, Nginx, Vercel
Engineering: Multi-tenant SaaS, third-party integrations, payment gateways, async jobs/queues, Agile/Scrum, code review

PROFESSIONAL EXPERIENCE

Full-Stack Developer | Vertex | Jan 2021 - Dec 2025

- Delivered production web and mobile applications with Laravel, Next.js, React, and Flutter, supporting thousands of active users.
- Optimized REST APIs and MySQL/MongoDB data access for high-traffic endpoints, reducing query execution time by up to 40%.
- Delivered a hotel management system with Nobeds channel-manager integration, real-time room availability, POS workflows, and Arabic/English support.
- Delivered a PHP HR and payroll ERP covering payroll processing, leave management, fingerprint-device integration, an employee self-service portal, and 30+ exportable reports.
- Built Ovoo/AutoReply WhatsApp SaaS features including CRM, broadcast campaigns, multi-device sessions, and courier/customer portals; integrated payment gateways, messaging APIs, channel managers, device APIs, and cloud storage.

Freelance Full-Stack Developer | Self-Employed | 2017 - 2021

- Delivered end-to-end web and mobile solutions for clients across Egypt, Saudi Arabia, and the UAE using Laravel, Flutter, Node.js, and React, from requirements through production deployment.
- Built e-commerce platforms, classified marketplaces, booking systems, and custom dashboards; maintained repeat client relationships across retail, real estate, and professional services.

SELECTED PRODUCTS & PROJECTS

NazBiz - Multi-Channel AI Messaging SaaS | nazbiz.io
Developing a customer-messaging SaaS platform with a unified inbox, AI-assisted replies, automation workflows, and third-party channel integrations.
Laravel · Next.js · TypeScript · Redis · Pusher/Echo
